Black and titanium grey metal valves

The valve for black and titanium grey rims

Black and titanium grey rims are the current trend. We have the valves to match.

Advantages:

- ✓ Simple mounting and demounting – top nut fits over the valve cap
- ✓ Aluminium valve cap with seal ensures 100% air tightness
- ✓ Hex nut with clip-on washer
 - ➔ prevents damage to the rim
 - ➔ protects the rim
- ✓ Anodized black
 - ➔ permanent surface coating, colour does not flake off
 - ➔ protection against corrosion, as valve cap and stem are made of the same material
- ✓ Anodized titanium grey
- ✓ Also reliable for fast vehicles (over 210 km/h)
- ✓ Valve made of light metal (aluminium)
 - ➔ light weight

**ALLIGATOR quality “made in Germany”
for the safety of your customers**

Art. No. 51.2568	Art. No. 51.2558
Titanium grey	Black
100 VPE	100 VPE

Technical data:

Valve hole diameter: 11.3 + 0.4 mm
 Valve length: 43 mm
 Width of flats: 11 mm
 Installation torque: 4 +-0.5 Nm
 Pressure range: up to max. 14 bar

Suitable for almost all standard rims with a valve hole size of 11.3 + 0.4 mm.
