# ALLIGATOR CVV<sub>EASY</sub> –

## A valve especially for commercial vehicles and mobile homes

In day-to-day operation, commercial vehicles and mobile homes are exposed to considerable pressures. The tire valve must seal reliably in different rims.

ALLIGATOR CVV<sub>EASY</sub> combines the pressure capacity of a metal valve with the easy mounting of a Snap-In rubber valve.

In the case of tyre pressures under 4.5 bar, special transporter valves are required.

### Assembly

Use mounting paste, press the valve in by hand.

Make sure the valve is sitting tightly in the rim.

### Recommendations for valve installation:

- ✓ Clean the rim flange and the area around the valve hole thoroughly. Check the valve hole area for damage.
- ✓ Before mounting, lubricate the valve with **mounting paste** or a similarly suitable lubricant.
- ✓ Replace the valve with a **new** quality valve from ALLIGATOR each time the tyres are changed.

### Disassembly

Break out and remove the thrust washer.

Insert the valve with the standard mounting tool.

**No special tools necessary!**  
**No damage to rims!**

| ALLIGATOR Description                 | ALLIGATOR Artikel-No. |
|---------------------------------------|-----------------------|
| ALLIGATOR CVV <sub>EASY</sub> - 40 mm | 530020                |
| ALLIGATOR CVV <sub>EASY</sub> - 47 mm | 530030                |
| ALLIGATOR CVV <sub>EASY</sub> - 60 mm | 530040                |

### An overview of the advantages:

- ✓ Simple to **mount by hand**
- ✓ Reliable sealing in the rim up to 7 bar
- ✓ Easily **removed – without special tools**
- ✓ No rim damage during disassembly
- ✓ High pressure capacity
- ✓ Fits almost every rim  
Valve hole must comply with the ETRTO standard

Patented thrust washer with predetermined breaking point.
