## TPMS Tool Kit

The TPMS Tool kit was specially put together to provide all the mechanical tools needed to install tyre pressure sensors on valves and wheel rims. The preset torque screwdriver corresponds to the values recommended by ETRTO and ensures that components are tightened to the right torque and that sensors are correctly installed.

### Your advantages at a glance:

- ✓ Simple and correct mounting of sensor and valve on the rim
- ✓ Prevents loss of air through damaged grommets in the case of clamp-in valves
- ✓ One-man operation - optimised installation with no wasted time
- ✓ High-quality, calibrated torque screwdriver preset to 3.3 Nm (measurement accuracy +/- 6%)
- ✓ Rapid bit changing through the use of sophisticated technology

Article-No.  
232425

### What is included in the kit

- ✓ 1/4" Adapters
- ✓ Torx bit, size 15
- ✓ Torx bit, size 20
- ✓ 11 mm drive socket
- ✓ 12 mm drive socket
- ✓ Clamp-in valve tool
- ✓ Calibrated torque screwdriver,  
preset to 3.3 Nm/29 inch lbs
